FOR IMMEDIATE RELEASE

“Infotegrity and TwoCoast Consulting team with Hillside Family of Agencies to deliver collaborative support services.”

Infotegrity, LLC, TwoCoast Consulting, Inc. and Hillside Family of Agencies announced they are partnering to extend and enhance support services for all Hillside affiliates and administrative groups. Hillside implemented Oracle’s E-Business Suite in 1995 to best manage the administrative, financial and compliance requirements of their growing organization. Infotegrity and TwoCoast Consulting are expert in key Oracle functional and technology areas, and will help deliver cost effective, collaborative support services for Hillside’s integrated Oracle E-Business Suite, Database and several other related systems.

Hillside Family of Agencies Database Manager, Carolyn Kenny, stated that “the combination of Infotegrity, TwoCoast and Hillside staffs represent a formidable team to help ensure around the clock access to important information and administrative systems. Infotegrity and TwoCoast’s reputation for delivering collaborative Oracle support services is impeccable and they strictly adhere to Hillside’s principles and processes as well as complement our people. As Hillside Family of Agencies continues to grow to service the needs of children, families and our affiliates, we know Infotegrity and TwoCoast will be a crucial part of our team, expansion and excellence.”

Infotegrity and TwoCoast Consulting’s founding executives, Steve Hersh and Mike Gilbert, respectively, issued a joint statement. “We are pleased to be associated with Hillside Family of Agencies and look forward to supporting their Oracle functional and technical support requirements with our proven people, processes and partnership. Furthermore, our innovative tools, techniques and technologies from both firms allow us to deliver collaborative support services on a more cost effective basis to clients like Hillside.”

Infotegrity and TwoCoast Consulting enable clients to focus on their strategic initiatives and core competencies, while significantly reducing the cost, complexity and risk of implementing, operating and optimizing integrated business information solutions. With close to ten years of Oracle experience per employee and a combined fifteen years in business, Infotegrity and TwoCoast Consulting represent two of the most comprehensive, experienced and reputable Oracle Partners throughout New York State and in the north east. Oracle products and technologies supported by both companies include: Oracle E-Business Suite, Database 10g, Fusion Middleware, Reports, Discoverer, Warehouse Builder, etc.

Infotegrity is located in Pittsford, NY, and TwoCoast is in Honeoye Falls, NY. Both organizations act as trusted business advisors to clients delivering innovative, comprehensive

service and support solutions to small and mid-size companies and divisions of Fortune 1000 businesses.
